Subject: Please do not approve the CLUP 3rd draft.
Date: Sunday, October 5, 2025 7:36:14 PM

I am once again looking at the draft CLUP, this time the 3rd draft, and it too is not nearly complete. For one thing, the Future Land Use Map shows several areas that are designed 'Residential or Transition'. There is a big difference between those two designations, so it is obvious that this should not be approved until the designations are corrected. Even city planning staff said this designation is very unusual.

It seems the City Planning Commission is in a hurry to complete the CLUP instead of slowing down to get it right. I also find it disingenuous to say the Future Land Use Map is not a zoning map. You know perfectly well that, when it comes to zoning, the Future Land Use Map will be referred to as justification for zoning.

Please pause the plan and take the time to get it right. This plan will have serious repercussions on our city for many years. Please do not rush it. Thank you. -Peace, Kitty
