Proposal for Professional Services

Ann Arbor Department of Parks and Recreation

Bryant Community Center Addition

Understanding of the Project

General Scope of Work:

The City of Ann Arbor Department of Parks and Recreations (AAPR) has the opportunity to meet the expanded needs of the Bryant Community Center by making use of a previously purchased adjacent house. In order to create an operational center the plan is to construct a connector between the two buildings.

1. Phase One was to evaluate the buildings and to develop concept space plan options with associated preliminary cost estimates. This preliminary work was completed in 2013 by Mitchell and Mouat.
2. Phase Two is to implement the connector addition of the preferred plan by providing services for site plan review, construction documents and construction. Note that attempts will be made to keep the scope to the connector alone but code officials may require some upgrades to one or both of the existing buildings which could impact project scope/costs and design fees.

Project Budget:

The overall project budget including design fees is \$300,000. It is possible that the budget may be increased to include scope within the existing buildings in which case design fees will be adjusted accordingly.

Approach to the Project

Methodology:

1. Use the preferred Phase One schematic design option to develop design development and construction documents for the Connector including investigation of relevant site and building existing conditions. Meet with staff to review construction plans at 50% and 90%, incorporate input, and prepare cost estimate.
2. Concurrently prepare Site Plan suitable for submission to the City of Ann Arbor for review and approval.
3. Assist with bidding, including meeting with prospective contractors at a pre-bid meeting, answering questions during bidding period, and preparing addendums.
4. Oversee construction project, including progress meetings with staff and contractor, construction inspection, requesting and approving all submittals, change orders, and pay requests.

Schedule of the Work:

Our Design Team is ready to start as soon as the go ahead is provided by AAPR. It is understood that the construction phase of the project can take place at any time of the year, weather permitting, but that construction must accommodate programs as much as possible. We anticipate approximately six months for document preparation and site plan approval process and four months of construction. Based on being provided an approval to proceed by early September this schedule would allow bidding in late winter and start of construction in the spring of 2016.

Design Team Qualifications

All the personnel assigned to this project understand the need to maximize the value of every design decision and every cost element. We have experience in working with our design partners on challenging additions/renovations to public buildings.

Cost Proposal for Addition and Renovation of Existing Buildings**Renovation / Remodeling of Existing Buildings**

Once the scope of this work is defined we will be able to provide an accurate cost for design services (architectural, mechanical, electrical, and structural). The June 11, 2013 Cost Estimate accounted for \$220,000 of construction cost to provide renovated / remodeled space. Based on this scope we would anticipate the design fees to be approximately \$30,000.

ESTIMATED GRAND TOTAL FOR ADDITION AND RENOVATION **\$104,300**

We at Mitchell and Mouat appreciate the opportunity to present this proposal for design services for the Bryant Community Center Project. Unfortunately although the project budget is small there are many design steps necessary to fulfill the needs of the project as shown in the task list above. We would be happy to work with AAPR staff to adjust the scope of services needed as seen appropriate.

Respectfully Submitted,

Mitchell and Mouat Architects, Inc.
