To Whom It May Concern:

I support the State Street District weekend street closures. The closures during the pandemic have been important to the survival of my business. They have allowed my customers to dine in a safe and comfortable environment.

I have been waiting to reopen for inside dining until my entire staff have been fully vaccinated. The closures have allowed my staff to be employed, and my restaurant to have some income.

Sincerely,

To whom it may concern,

I am writing to share my support for the street closures on State Street. My restaurant originally voted against it because we are unable to staff the extended patio thus the space in front of our spot will remain empty, and because we do hear complaints from guests about the inconvenience of getting around downtown by car. However, if the street closure is good for my street it is good for me.

Sending love and strength to all my fellow business owners.

Re: State Street Closures

The weekend street closures of State Street have been key to the survival of Ashley's during the pandemic. Guest feel more comfortable outside than in, even with the increase in vaccinations. I wish more merchants would take advantage of the increased foot traffic that the street closures bring.

Please let me know if you have any questions or need further information.
