GRANT

This is Grant # ANNARBORSOLAR24 between the Department of Labor and Economic Opportunity (Grantor), and City of Ann Arbor (Grantee), subject to terms and conditions of this grant agreement (Agreement).

1.0 Statement of Purpose

To help the City of Ann Arbor with the cost of construction of a solar power plant.

1.1 Statement of Work

The Grantee agrees to undertake, perform, and complete the following project:

The City of Ann Arbor The City of Ann Arbor is collaborating with DTE Energy to construct a solar power plant. This project will lessen air quality impact, reduce greenhouse gas emissions, and advance the State's MI Healthy Climate Plan by investing in solar energy in and around the Ann Arbor landfill.

This grant will assist the City of Ann Arbor with buying down the cost of energy produced from the landfill solar site by granting DTE funding to purchase some of the solar panels and racking necessary to build the system. By paying the costs upfront, the City is lowering the levelized cost of energy, or the amount paid per month for the electricity produced from the system over the estimated 30-year life of the asset.

The City of Ann Arbor Grant Application and Statement of Work is included as Attachment A.

1.2 Detailed Budget

- A. This Agreement does not commit the State of Michigan (State) or the Department of Labor and Economic Opportunity (LEO) to approve requests for additional funds at any time.
- B. Attachment B is the Budget. The Grantee agrees that all funds shown in the Budget are to be spent as detailed in the Budget.
- C. If applicable, travel expenses will not be reimbursed at rates greater than the State Travel Rates, Attachment C, without the prior written consent of the Grant Administrator.

Changes in the Budget of less than 5% of the total line item amount do not require prior written approval, but Grantee must provide notice to the Grant Administrator.

Changes in the Budget equal to or greater than 5% of the total line item amount will be allowed only upon prior review and written approval by the Grant Administrator. A formal grant amendment must be signed by both the Grantor and Grantee.

1.3 Payment Schedule

Backup documentation such as computer printouts of accounts, ledger sheets, check copies, etc. shall be maintained for audit purposes in order to comply with this Agreement.

Public Act 279 of 1984 states that the state shall take all steps necessary to assure that payment for goods or services, is mailed within 45 days after receipt of the goods or services, a complete invoice for goods or services, or a complete contract for goods or services, whichever is later.

Grantee may not delegate any of its obligations under the Grant without the prior written approval of the State. Grantee must notify the State at least 90 calendar days before the proposed delegation, provide a statement ensuring that no conflicts of interest or ethical concerns exist (as described in Section 3.5 – Conflict and Ethics), and provide the State any information it requests to determine whether the delegation is in its best interest. If approved, Grantee must: (a) be the sole point of contact regarding all contractual project matters, including payment and charges for all Grant Activities; (b) make all payments to the subgrantee; and (c) incorporate the terms and conditions contained in this Grant in any subgrant with a subgrantee. Grantee remains responsible for the completion of the Grant Activities, compliance with the terms of this Grant, and the acts and omissions of the subgrantee. The State, in its sole discretion, may require the replacement of any subgrantee.

2.3 Project Income/Interest Income

A. Program Income

Program income includes income from fees for services performed from the use of rental of real or personal property acquired with grant funds, from the sale of commodities or items fabricated under a grant agreement, and from payments of principle and interest on loans made with grant funds. Program income does not include rebates, credits, discounts, refunds, etc., or interest earned on any of these items.

Program income means gross income received, and directly generated by a grant-supported activity, or earned only as a result of the grant agreement during the grant

period. “During the grant period” is the time between the effective date of the award and the ending date of the award reflected in the final closeout expenditure report.

All program income must be used prior to the submission of the final closeout report for the Fiscal Year (FY) for which program income was earned.

B. Interest Income

Interest income earned by grantee must be treated as, and included in, the calculation and reporting of program income.

Interest income earned by grantee is not considered program income and must be identified and reported separately.

Remittance of interest income earned in excess of \$500 must be remitted via check made payable to the “State of Michigan,” along with a completed remittance submission form (Attachment A) to the following address:

State of Michigan
Department of Labor and Economic Opportunity, Finance
PO Box 30823
Lansing, MI 48909

2.4 Share-in-savings

The Grantor expects to share in any cost savings realized by the Grantee. Therefore, final Grantee reimbursement will be based on actual expenditures. Exceptions to this requirement must be approved in writing by the Grant Administrator.

2.5 Order of Spending

Unless otherwise required, Grantee shall expend funds in the following order: (1) private or local funds, (2) federal funds, and (3) state funds. Grantee is responsible for securing any required matching funds from sources other than the State.

2.6 Purchase of Equipment

The purchase of equipment not specifically listed in the Budget, Attachment B, must have prior written approval of the Grant Administrator. Equipment is defined as non-expendable personal property having a useful life of more than one year. Such equipment shall be retained by the Grantee unless otherwise specified at the time of approval.

2.7 Accounting

The Grantee shall adhere to the Generally Accepted Accounting Principles and shall maintain records which will allow, at a minimum, for the comparison of actual outlays with budgeted amounts. The Grantee's overall financial management system must ensure effective control over and accountability for all funds received. Accounting records must be supported by source documentation including, but not limited to, balance sheets, general ledgers, time sheets and invoices. The expenditure of state funds shall be reported by line item and compared to the Budget.

2.8 Records Maintenance, Inspection, Examination, and Audit

The State or its designee may audit Grantee to verify compliance with this Grant. Grantee must retain, and provide to the State or its designee upon request, all financial and accounting records related to the Grant through the term of the Grant and for 7 years after the latter of termination, expiration, or final payment under this Grant or any extension (“Audit Period”). Landfill Solar Project History and Summary

In 2020, Ann Arbor City Council authorized the staff to move forward with exploring the feasibility of a large solar installation at and around the capped landfill (known as the landfill solar project or the Wheeler Solar Park). The project team began working and neared completion in early 2022, with a plan to present the final design to City Council for formal authorization to build by mid-2022.

Within weeks of presentation of the final plan to Council, however, the U.S. Department of Commerce initiated an investigation into whether significantly higher tariffs should be paid on most of the solar panels purchased in the US. The impact of this investigation was swift – solar panel prices rose significantly, and significant supply chain and material acquisition challenges worsened. These changes made it impossible to move forward with the landfill solar project – too many variables were in question to recommend the project, and prices had increased significantly. Given this, the project team made the decision to wait on the results of the investigation before determining how to proceed. In spring of 2023, the Department of Commerce issued their findings, which confirmed higher tariffs on most solar panels would be charged beginning in June of 2024. With these findings, the Ann Arbor and DTE team re-instated meetings on the landfill solar project and began exploring how the investigation had impacted costs.

The results showed that pricing was significantly higher than where it had been before the investigation. In light of this, Ann Arbor City Council, the City Administrator's Office, and Ann Arbor's state delegation began working to secure State funding support to help offset the increased costs. This work was successful, with the City securing \$5,000,000 from the State to help the landfill solar project move forward.

Given this, the DTE and Ann Arbor team are recommending the City move forward with finalizing designs and executing a 16MW solar array at the Wheeler Center and building that system so that it would be possible to add the capped landfill portion of the project at another time.

The \$5,000,000 from the State of Michigan award will be applied, up front as a payment to DTE, to purchase some of the solar panels and racking necessary to build the system. By paying the costs upfront, the City is lowering the levelized cost of energy, or the amount paid per month for the electricity produced from the system over the estimated 30-year life of the asset. More directly, funding from the State will be awarded to DTE Energy to purchase \$5,000,000 worth of solar panels and racking. The remainder of the project costs will be paid monthly by the City and other subscribers to the landfill solar project through what is known as the levelized cost of energy, or the cost per kilowatt hour of energy used.

The following are the action items and associated timing to finalize and build the landfill solar project.

Special Grant Project Budget

Please enter the major cost elements of the project, selecting from the drop down list options. If you select an activity with a ":" please add a few additional words of description in the "Other/Additional Notes" column. You will be asked to report based on these budget categories. It is recommended that the budget have between 2-5 line items. Keeping the budget at a fairly high-level minimizes the need to amend the budget if the project costs deviate slightly from the plan.
