The idea that you may actually mess with Huron Parkway is ridiculous. It already has ready made paths for bikes and pedestrians, and is about the only way to get north and south in the city (especially since you got the state NOT to add lanes to US 23, which is backed up many hours of the day), and appears to have very good visibility and seems quite safe. PLEASE resist the knee jerk need you seem to have to do whatever you can to make traveling in the city even more difficult than it already is. This is a solution without a problem.

I called today to be able to make a statement by phone at tonight's meeting. I was given these 2 numbers to call, and told I would be on hold until called upon.

888-788-0099

877-853-5247

At 6:55, I called each of these numbers; both asked for a zoom meeting number—which I was never given. While watching the meeting, I heard my name called, and someone announced that I was expected to be there in person.

So that system did not work very well. I could easily have been sent a zoom link. Please help staff realize that not being able to speak denies my ability to participate.

I encouraged other folks to attend or call in to support A2CLT. I re-arranged my schedule in order to give my wholehearted support of the Ann Arbor Community Land Trust. It's disappointing that I wasn't able to speak.

We need all kinds of housing options available. Building equity is important, much better than rent. A2CLT has the capacity and skill to run this program, and I think the City should support their work.

We are expecting A2CLT townhouses and a house on Jewett—and looking forward to this and more A2CLT housing throughout Ann Arbor. Please support using TIF funding for this important project.

I hope this letter will have the same weight as calling in!
