

REPORT SCOPE DISCUSSION STARTER

What the resolution says:

- A shared vision of the Center of the City (overall experience and meaning of the space)
- Long term planning, and immediate and intermittent uses, building toward the final vision (activities and amenities of the space)
- Written recommendations to City Council to help determine the next steps to advance the development of central park and civic center commons known as the Center of the City (action items and needed resources)

What level of detail is necessary to answer the questions:

- How do we make this space uniquely Ann Arbor and reflective of community wishes?
- What would be most useful to City Council in taking the next steps to advance the vision? That is, how do we keep this report from suffering the fate of sitting on the shelf?
