Subject: Concerns for the George

Planning

I've lived on page Ave for 17 years and I moved in Ann Arbor to be surrounded by like minded individuals. My street is down to rubble but in the rich areas of Ann Arbor they've been repaved up to three times. I want to voice my opinion a commercial is not dead and I agreed to this project knowing that there would be commercial spots available. The commercial spots need an entire buildout if there is not even drywall and the interior walls or exterior walls inside the building. This developer or the original developer would go around metro Detroit driving projects bankrupt. Since I live on page if this gets approved I want the exit on the page to be blocked off except for emergency vehicles and residential sticker permits for people who live on page but not at the George. I need to know when the George is having a hearing to turn commercial starts in the 41 residential units because I have a concern.

Sincerely,

Dan Kotwicki – using voice recognition for email dictation.
