Subject: 2250 Ann Arbor-Saline Rd. Condo Development

Good Afternoon,

I am contacting you with regards to the condo development on 2250 Ann Arbor-Saline Rd.

I live in Village Oaks Court in Ann Arbor. The new development will be build on the back on my house.

The reason why I am writing to you is because I am concern that adding a condo with 75 units will bring about 75 plus vehicles coming in and out at high pick hours. This will create many accidents on Ann Arbor-Saline Rd. As an example today I spend 5 minutes trying to get out of my street that is far away from the intersection on Main St.

I also concern that this will bring more rain water to our street/neighborhood causing a drain problems.

A better use of the property will be buying the land and creating a city park. There are tons of trees and nature that will be lost if an approval in granted. There is a small forest at the back of the property with a natural stream that can be lost.

I hope you take my email into consideration.

Best,
Andres P Calvachi
