**Subject:** 317 S. Division St.

Dear Commissioners,

I am writing in support of the project proposed by Ryan Pantaleo for 317 S. Division Street. As a resident of an historic district, the Old Fourth Ward, I recognize the significance of preserving the historic properties in Ann Arbor as irreplaceable assets to the community. The plans to return this property to its original residential use, to restore the facade, and to ensure that the addition does not overpower the original structure is an indication of sensitivity to the need to preserve properties and to make them financially viable. It demonstrates that these two goals can be accomplished together.

I hope you will approve this project. It will be an asset to the neighborhood and to the city.

Sincerely,

Elleanor Crown
