Subject: RE: Sign Permit & Rendering

Mike,

I am attaching the text to Section 5.24.6 (C) below:

A. Residential Developments

A residential development of more than one Single, Two-Family, Multi-Family, or Townhouse Dwelling is permitted one Sign identifying the development at any entrance to the Development, with a maximum of two such Signs for each development. Such Signs shall have a maximum Sign Area of 50 square feet and a maximum height of eight feet.

You have forwarded a concept with 14 proposed signs. I cannot approve that as forwarded. The complex can have up to 2 main identification/entrance signs if they have 2 entrances to the complex. The addresses can be installed on the buildings to post the addresses. Let me know if you have further questions.
