RE: Ordinance Amendment – Special Exception Uses as Type I Citizen Participation Projects

DATE: August 23, 2018

I recommend amendment to this proposed Ordinance this evening to make the effective date of the Ordinance October 31, 2018. This would match other proposed Ordinance revisions and provide more predictability for petitions that are currently under consideration.

With consultation with the City Attorney's Office, I can conclude that this proposed change would not be material and therefore require any additional scheduled hearings.
