The section of this contract outlining the "narrowing of the Harding/Wallingford intersection" is NOT based on community participation. The residents of this neighborhood do NOT support the needless narrowing of the intersection. City Council Resolution R-23-330 directs the City Administrator "to use a collaborative model of public engagement for traffic calming schemes" and directs him "to incorporate traffic calming... where a record of crashes, speeding, and/or resident complaints exists, or otherwise suggest a need for calming to enhance comfort and safety for non-motorized uses, regardless of petition status." Two meetings with neighborhood residents witnessed strong opposition to the design of narrowing the intersection. There is no record of crashes, speeding, or resident complaints, and no evidence presented that the design will enhance comfort or safety. The proposed design diminishes the attractiveness of the neighborhood and does NOT reflect the wishes of the residents.

Ann Arbor both has a housing shortage and a downtown library branch in need of updates. The idea of addressing both, with a new library adapted to our community's changing needs, and directly above the library and directly across from the transit center, is brilliant. I can't begin to express how excited I am by this whole plan. Thank you to everyone who has worked on it so far!

The plan for the new downtown library is so exciting, and it will be fantastic to finally put the library lot parcel to good use. I'm looking forward to repealing the charter language that has contributing to keeping this perfectly located parcel as a surface parking lot for far too long.

The library has proved themselves expert at maintaining and programming its branches, and is clearly the best organization to bring us the "civic center commons" that most voters imagined when this section was originally added.
