**Subject:** I hope bird-safe glass will be required of future downtown buildings

Hello Brett:

While I hope that bird safe glass will become part of the new master plan requirements for our larger buildings, I am wondering if either staff or city council can strongly request such treatments for buildings currently in the approval pipeline. If I could, I would force the University to abide by such strictures as well, but I gather I will need to advocate for that at the state level...

Thanks for listening : )
