

College of Pharmacy Opportunity: Service & Research

Name	Karen Farris
Affiliation	Faculty
Department/Program	Clinical Pharmacy..College of Pharmacy
Interest	service delivery to the partner
Project	Expansion of an academic-community partnership: Ann Arbor Housing Commission and the University of Michigan - this is a service delivery opportunity that will lead to research in the future
Goals	<p>Our long-term goal is to provide community-anchored clinical services and health promotion interventions for prevention and monitoring of chronic conditions, delivered by inter-professional student teams to improve the health of AAHC residents.</p> <ol style="list-style-type: none"> 1. Develop a Community Advisory Board (CAB). 2. Expand the interprofessional services in AAHC locations. 3. Identify an evidence-based intervention that meets AAHC resident needs.
Deliverable/Partner Benefit	ongoing. Expansion of this partnership will allow for the teams of interprofessional faculty and students to respond to community needs to improve health, mitigate health disparities, and advance social change.
About the researcher	Dr. Farris is the Charles R. Walgreen III Professor of Pharmacy Administration at the University of Michigan College of Pharmacy. She is Chair of the Department of Clinical Pharmacy. We have worked with Ann Arbor Housing Commission for about 18 months.
Suitable for	We are already working with Ann Arbor Housing Commission.
Time Commitment/Duration:	We want this to be a long-term partnership. 10 years!
Level of involvement by the Community Partner:	We need the partner to meet with us 1-2 times per year, with Ginsberg. We need the partner to respond to up to 2 emails every 2-3 months.
Space/Materials Needed	We use space in the Baker Commons facility. Our Ginsberg/IPE grant provide supplies. The long term goal is that health professional colleges provide support for supplies.
Student Engagement	student course for credit at 2 credit hour of independent study
Deliverable/Partner Benefit	Helping us understand the partner needs at AAHC

College of Pharmacy Opportunity: Course

Name	Karen Farris
Affiliation	Faculty
Department/Program	Clinical Pharmacy..College of Pharmacy
Project Type	Course
Project Description	In order to identify community health needs and potential opportunities for intervention, first- and third-year pharmacy students will interview stakeholders of AAHC, such as residents at AAHC properties, AAHC staff, and community organizations that provide services to residents of AAHC
Goals	Identify future dissemination & implementation research opportunities
About the instructor	Karen Farris and Sarah Vordenberg. Sarah is a clinical associate professor in the college of pharmacy.
Suitable for:	AAHC; public policy students
Time Commitment/Duration:	80-100 hours per semester for 6 pharmacy students
Level of involvement by the Community Partner:	Participation and provide direction via responses
Space/Materials Needed:	connections to staff at AAHC for interviews
