**Subject:** Trinitas Project - Proposed for Pontiac Trail north of Skydale, and south of the North Sky construction site.

Dear Planning Commission,

As a citizen who lives down the road from where this proposed project is to be constructed, I am greatly concerned about it for several reasons. And they are why I have chosen to write to you now, which is something I have never done before; even though I've been a homeowner now in Ann Arbor for almost 25 years and have lived in the same house that length of time too!

But it's important that you hear from those citizens that these types of projects will impact the most and that includes me.

I am concerned because once again, a housing development has been proposed that doesn't really include anything affordable. The North Sky project doesn't really include anything affordable either. Sadly, if I wanted to move in to any of these projects, I couldn't do so because they are not affordable for me, even though I make a decent salary.

My main concern however is the impact it will have for us citizens in this area regarding the increase in traffic! Right now, some days the traffic is so bad early in the morning, when I am at the bus stop waiting on the bus. I can barely get across Pontiac Trail, until someone who's not rushing to work decides to stop for me. But there is so much traffic already that I don't even feel safe walking across the street, and that is a shame!

I realize Ann Arbor is on top of many lists for best places to live etc, but it won't continue that way if we don't address concerns like mine from current citizens!

And the constant cutting down of trees (our arbors where part of our name came from) and natural habitats for animals such as deer, is deplorable. No wonder I see deer walking down my street in the middle of the afternoon!

Because of my concerns, I urge you to vote NO on this proposed project from Trinitas. We will already have enough of a huge impact from the North Sky development as it is.

Thanks for your time,

Angela O. Perry
