Subject: Written Comments for ZBA Meeting

Good afternoon,

My name is Aliya Kurian and I am a current tenant at 1211 Prospect with a written comment for the ZBA meeting. I wanted to share my struggle with the parking situation at this property in hopes of discussing it further with the city. My roommates and I are all heavily involved in school and the community, we all have jobs (I work as a dishwasher in the dining hall), religious commitments, and family and pets to take care of. Our driveway has space to park three cars without impeding on the sidewalk, but if a car is parked in that third spot we typically get ticketed due to setback line policies and must resort to working with strict street parking rules if more than two of us have commitments. This has posed a large challenge on our living situation, because coordinating the commitments of six people results in a constant car swap that strains us and our families. On top of this we still rely on cars to go to grocery stores and to pick up family from the airport (week-to-week life things). Having another designated parking spot in the driveway would make everyday life a lot easier and would keep us from taking up street spots. Thank you for hearing us out!

Additionally, I wanted to confirm that I will be attending this meeting over zoom and would like to address the board.

Thank you so much for your time,  
Aliya Kurian
