Subject: Cottages at Barton Green

I'll be brief because I know you have received many emails. Please vote no on this development. It is completely inappropriate for the property location, and will be a great detriment to the communities around it.

You have reason enough to deny it based solely on traffic concerns that I know others have eloquently expressed to you.

Further, this could easily become a white elephant if the proposed business model doesn't succeed, because the design of the units does not convert well to more standard and marketable uses.

Thank you.
