

The Treeline

Allen Creek Urban Trail

An Update to the Transportation Commission

Norman Herbert, Co-chair
Nan Plummer, Executive
Director
The Treeline Conservancy
June 21, 2023

Mission

The Treeline Conservancy exists to foster the creation and sustainable maintenance of an urban trail that becomes an integral connector of people and places in Ann Arbor.

The Treeline will:

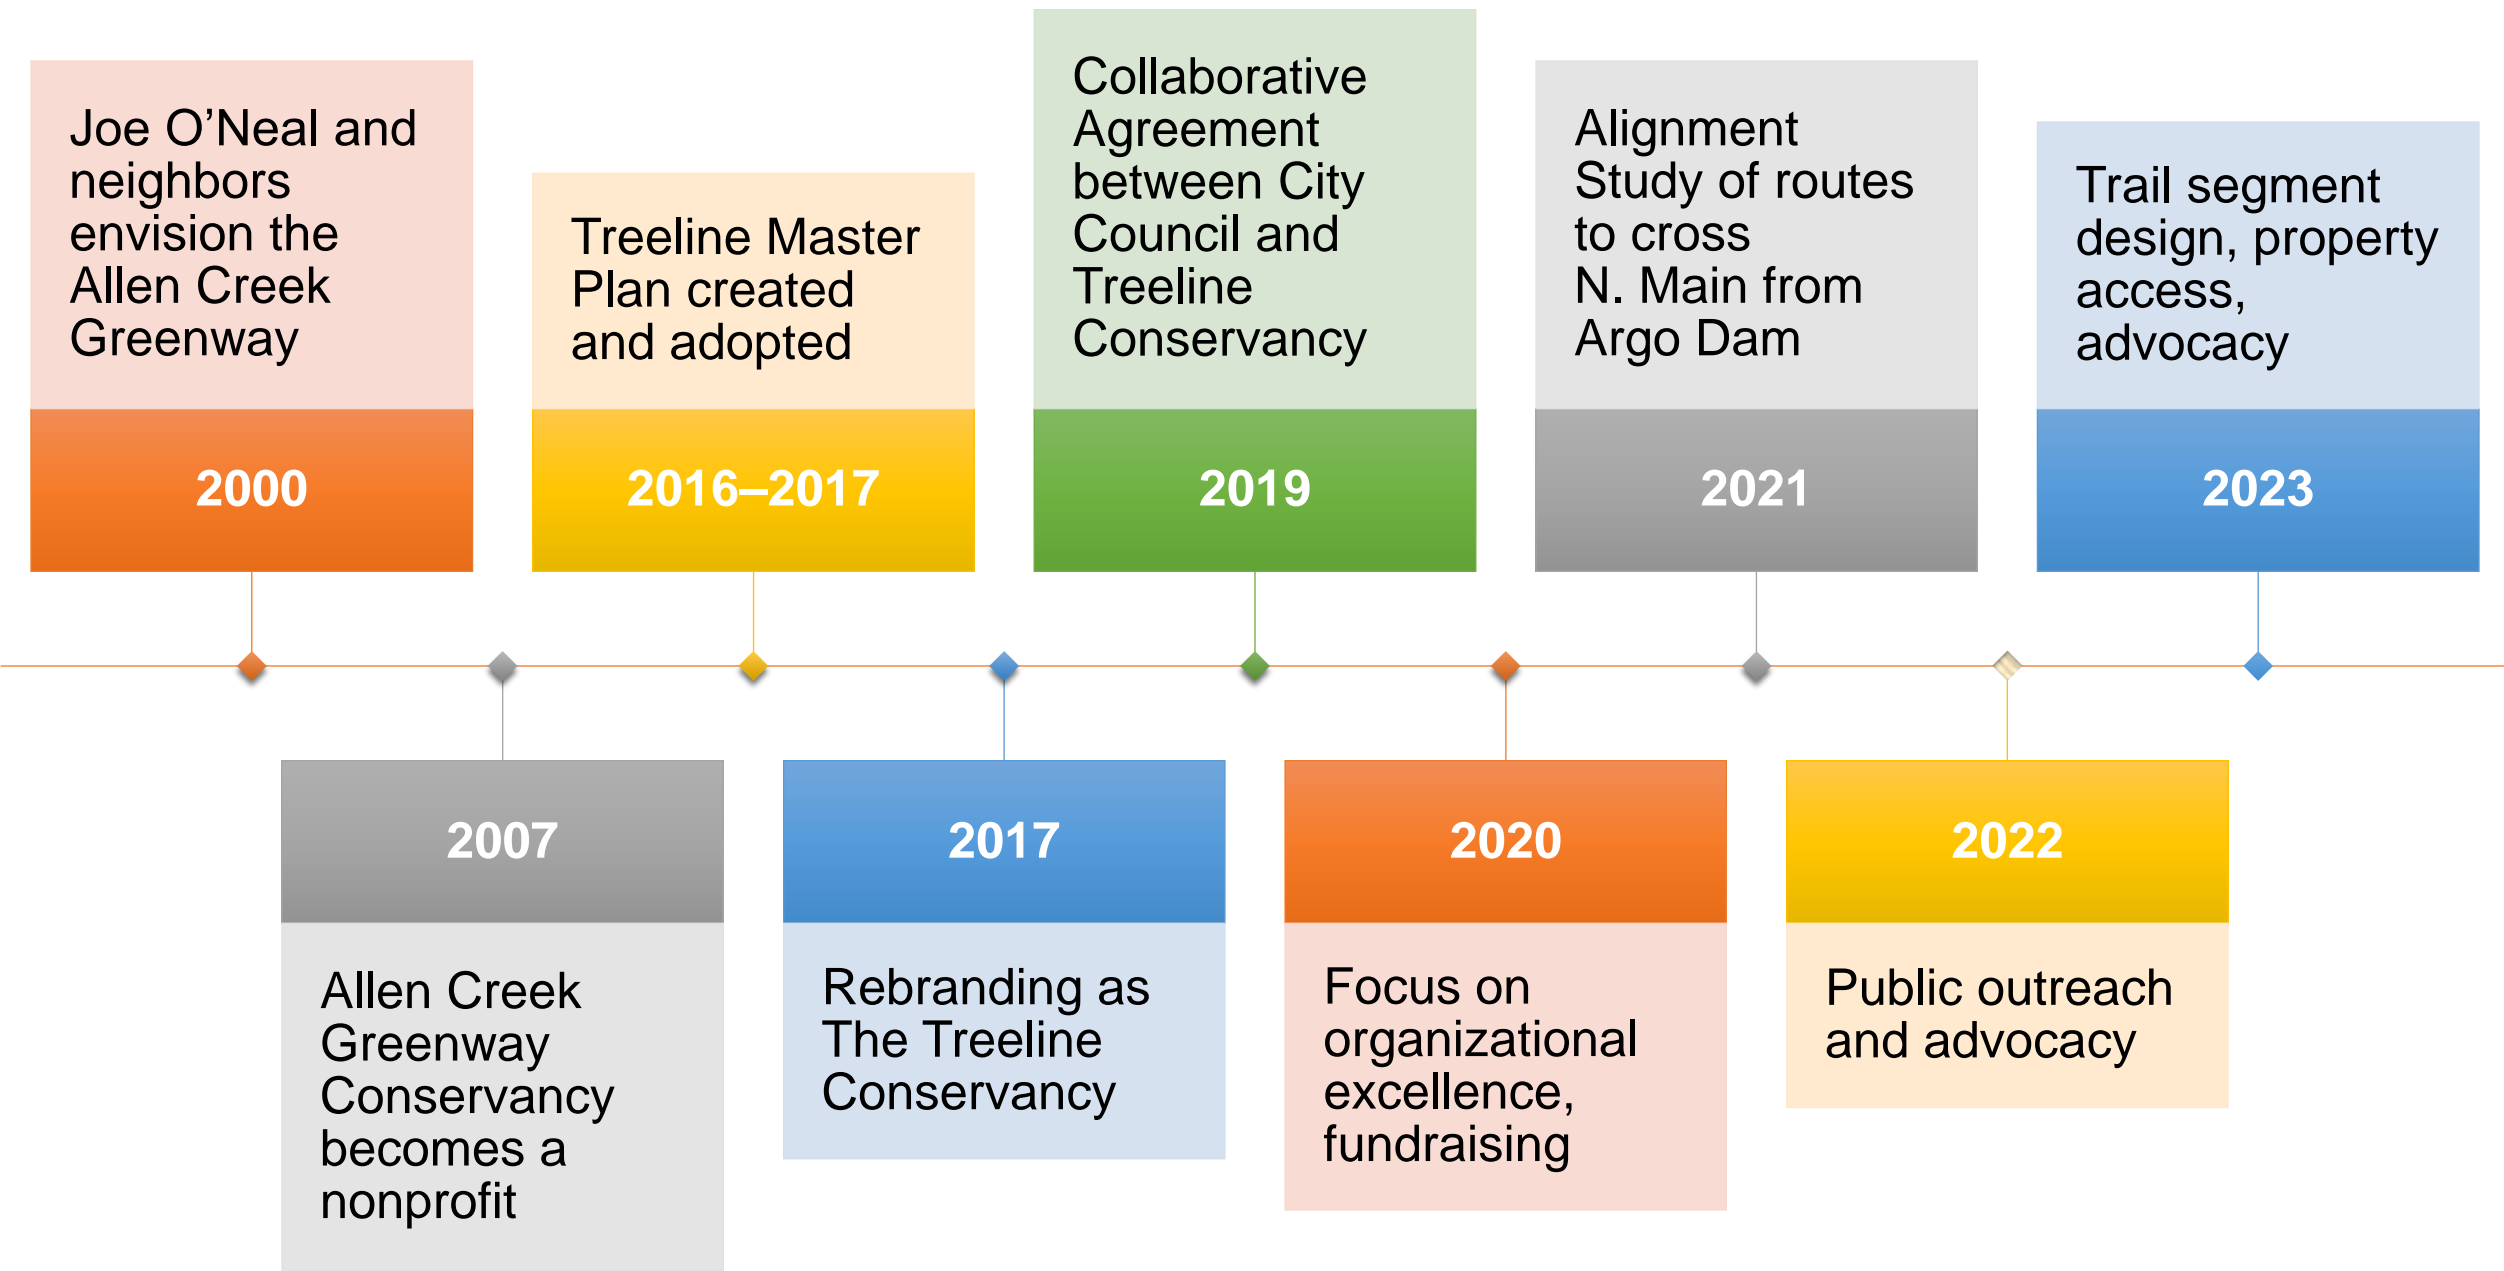

Bring **access** to Ann Arbor's river and park system through the heart of downtown along the alignment of historic Allen Creek

Provide **safe passage and recreation** from the Border-to-Border Trail at Argo Dam to the UM Stadium area

Invite **community** gathering and engagement with natural and cultural features

Benefit current and future generations by providing positive **economic impact**, improved **aesthetics**, enriched community engagement, and **improved stormwater quality**
