Hello, We live near here and object to having these low income apartments here. We feel that this will lower the property values and ruin the safety of our area. We come from the Westland area and purchased a house here because Westland has turned many apartments into low income and the crime has skyrocketed! It is no longer a safe area to live in. This is not the place to put these apartments. How would you like to have them put in your neighborhood? Wouldn't you worry about the safety of your children and property? Please reconsider and do not ruin our part of Ann Arbor. We don't want to be another Ypsilanti and that is what will happen if you do this. It is not fair to subject the families who live here and take care of their homes and pay their taxes to this, We feel this is a hasty decision and much more thought and discussion should be done before deciding to put a plan in place that will affect lives and property values of the taxpayers in the area.

Thank you, Susan Bokurak
