

Hello Wendy and Planning Commissioners,

I wanted to send a quick thank you for entertaining me and other classmates last night during the Planning Commission Meeting. It certainly provided a lot of context about the things we are studying in class and made me excited to see what else we will learn.

I had a few questions for whomever is able to respond. I was browsing through the bylaws and saw that the commission is made up of members who are supposed to have a wide variety of expertise.

Is it possible to know what areas of specialty each of the members has on the commission?

Are there any specific roles besides chair, vice-chair, secretary that are part of the commission?

Is there a person on the commission who is well versed in the laws and codes of the city or does everyone take a responsibility?

And finally, I am working in the new Career Service office for the Urban Planning program and wondered if any members are UM alumni?

Thank you so much! None of these answers are particularly time sensitive so take your time responding.
