Hi Simi!

Tuesday at 11am would be great! Thanks so much for getting back to me. We're looking forward to talking with you!

Best,
Hannah Bedner

Hi Hannah,
I'd be happy to chat with you about the City's approach to public EV charging. Would Tuesday or Thursday next week work for you? I'll be available between 10 and noon either day.

Good morning Hannah,

Thank you for contacting the City of Ann Arbor Transportation Commission. Your concerns will be provided as a communication item on the March 20th Commission Agenda. In addition please be advised that your message has also been forwarded along to our Sustainability and Innovations team who may respond separately.

Thank you

Christopher Cespedes, Management Assistant

Hello,

My name is Hannah Bedner, and I am a student at the University of Michigan enrolled in ENVIRON 319: Sustainability and the Campus. This is a project-based class, and my group is focusing on creating a project proposal and cost estimate for installing solar charging stations for electric vehicles at Matthei Botanical Gardens with the goal of showing support for EV drivers, serving as an example for the deployment of similar systems, and contributing to the University's sustainability goals.

I am reaching out to you because my group would like to get more information on how the City is approaching EV charging stations for the public, and better understand what lessons we might take from different challenges and successes the City has had as we complete this project.

Are you available to meet with us next week over Zoom for a 30-45 minute interview to discuss these topics? My group has pretty open availability on Friday (3/22), or we would be happy to set another meeting time that is most convenient for you.

Thank you for your time, and we look forward to hearing from you.

Best,
Hannah Bedner
