

Title

Resolution to Approve the Installation of Traffic Calming Devices on Scio Church Service Drive

Memorandum

Attached for your consideration is a resolution approving the installation of traffic calming devices on Scio Church Service Drive, from Seventh Street to Chaucer Drive. If approved, the installation and related construction: (1) should to take place during the 2019 construction season, (2) would be performed by the City's contractor for the 2019 Annual Local Street Resurfacing Project, and (3) would be paid for from the approved FY 2019 Traffic Calming Budget. The final traffic calming plan includes 2 speed humps and a raised crosswalk.

This work has the public support contemplated by the City's Traffic Calming Program. The project began when residents of the project area sent the City a petition in 2017. After an initial City study, public meetings followed on February 28, 2019 (orientation and workshop) and March 22, 2019 (on-site meeting, includes walking the length of the study street), in accordance with City processes. The City also sent questionnaires to each address in the project area as well as the final plan. The City also polled residents in the project and found the necessary level of support based on the Program criteria (greater than 50% of the returned final polls support the plan). In particular, of the 11 valid addresses in the project area, all 3 of the responses received supported the final plan.

Budget/Fiscal Impact: \$12,000.00 is included in the approved FY2019 Engineering Local Street, Traffic Calming Budget.

Body

Whereas, City Council adopted Resolution R-18-460 on November 19, 2018 to revise the City's Traffic Calming Program;

Whereas, City staff have followed all processes, and obtained a public support, required by the Program to proceed with its final plan to install traffic calming devices on Scio Church Service Drive, from Seventh Street to Chaucer Drive;

Whereas, The Transportation Commission *[language will be inserted, pending Transportation Commission action]* on May 15, 2019; and

Whereas, The total estimated construction cost for the traffic calming devices is estimated to be \$12,000.00, which funding is available in the approved FY2019 Engineering Local Street, Traffic Calming budget.

RESOLVED, That funding necessary for the installation of traffic calming devices on Scio Church Drive, in accordance with the City's final plan, be made available without regard to fiscal year;

RESOLVED, That City Council approve the installation of the traffic calming devices on Scio Church Service Drive from Seventh Street to Chaucer Drive in accordance with the City's final plan; and

RESOLVED, That the City Administrator be authorized to take the necessary administrative actions to implement this resolution.
