Subject: Voicing support for ZBA25-0022

Hello,

I live at 220 N 1st St, Ann Arbor, MI 48104. I am writing to voice support for the proposed height variance related to ZBA25-0022, as I received a "Notice of Public Hearing" postcard for this development. I feel that supporting this variance would allow development that is consistent with existing projects on more eastern parts of Huron. Denser (that is, more upward) building would help the city of Ann Arbor to meet its housing goals while causing minimal disruptions (e.g., to visibility, sunlight, and otherwise) to neighboring people and parcels.

Sincerely,
Devin Kilpatrick
