Hello Environmental Commission Members,

I am very pleased to see that the Environmental Commission has written a Resolution recommending that Natural Features be not only included, but made a priority, in the Comprehensive Plan and in updating the A2Zero Plan!

I urge you to approve this Resolution at your 4/24/25 meeting and forward it to the Planning Commission and City Council as soon as possible! I will be happy to write to those bodies to support the Resolution once they have received it.

Preservation of our existing natural features is critical in the near term, as we attempt to adapt to a more carbon neutral future.

Thank you,

Lynn Borset

Ward 5
