Subject: Prevent the 2250 Ann Arbor-Saline Road Condominium Project

Dear Ms. Rampson,

As homeowners in the Lansdowne neighborhood we ask you to prevent the 2250 Ann Arbor-Saline Road Condominium Project from creating a cut-through for traffic using Lambeth Drive.

Keeping children in our community safe must be a top priority. There are many children living in the neighborhood, attending Lawton Elementary, congregating at the two sports fields located in Lansdowne for both practice and games, and visiting the playgrounds spread throughout the neighborhood. A new entry/exit to/from our neighborhood threatens the safety of our children by allowing more vehicles on the road in a very residential area.

We already witness the increase in people trying to cut through our neighborhood on football Saturdays.

Please, do not compromise our children's safety. Prevent the 2250 Ann Arbor-Saline Road Condominium Project from cutting through our neighborhood using Lambeth Drive.

Thank you,
Diana & Paul Crossley
2360 Delaware Drive
