- C. Absent a written waiver, no act, failure, or delay by a party to pursue or enforce any right or remedy under this Agreement shall constitute a waiver of that right with regard to any existing or subsequent breach of this Agreement. ## Exhibit A

### SCOPE OF SERVICES – HOME ENERGY ASSESSMENTS

#### 1. Background

On September 5, 2023, Ann Arbor City Council voted to enact ORD-23-26, The Home Energy Rating Disclosure (HERD) Ordinance. The HERD Ordinance will go into effect March 12, 2024, and it will require that sellers of single family detached homes and single-family townhomes obtain a Home Energy Score (HES) for their home prior to publicly listing it for sale. The HES was developed by the U.S. Department of Energy (DOE) and provides reliable information on the home's energy efficiency, projected energy costs, and carbon emissions impact. The report will also include additional information on cost-effective energy improvements for the home. The intent of the HERD Ordinance is to provide consumer protections for homebuyers, enable more knowledgeable decisions about the full cost of operating dwellings prior to purchase, and to increase awareness of opportunities to lower utility bills and reduce carbon emissions. The ordinance is aligned with the City of Ann Arbor's A2ZERO goal to achieve a just transition to community-wide carbon neutrality by 2030.

The Office of Sustainability and Innovation (OSI) will provide free HES assessments to single-family home dwellers to facilitate roll out of the ordinance and to set a market standard for how home energy scores are performed to best meet the intent and goals of the HERD Ordinance. Due to the seasonality of homes sales and the real estate market in Ann Arbor, the OSI anticipates the demand for HES's to, at certain times, exceed the capacity of the on-staff assessors.

#### 2. Objective

The City of Ann Arbor's Office of Sustainability & Innovations (OSI) is seeking proposals by competent residential energy efficiency professionals who are currently or can quickly become DOE-certified Home Energy Score (HES) Assessors. Offerors deemed qualified to provide the services specified in this Request for Proposal will be placed on a list of qualified HES Assessors. As needed during high home sales season, the OSI will assign assessments to the HES Assessors to be completed within a predetermined timeline at no cost to the clients. Additional work will be granted based on the quality and promptness of performance on prior jobs sent to HES Assessor.

The City of Ann Arbor's Office of Sustainability and Innovation (OSI) will be the designated DOE HES Partner for all assessments conducted under this proposal. Assessors performing HES Assessments under this proposal must join OSI's Partnership. All assessments performed under this proposal must be submitted through OSI's Home Energy Score Portal. OSI will provide access to the online training portal and mentoring services necessary to become an HES Assessor at no cost to grantees who need to obtain HES Assessor certification and already hold a relevant credential per DOE requirements. The OSI will not cover costs to obtain a relevant credential. A list of relevant credentials can be found at the DOE's "Assessor Resources" webpage (<https://betterbuildingssolutioncenter.energy.gov/home-energy-score/becomeassessor>). The OSI will cover the costs of submitting assessments and completing Quality Assurance (QA) necessary to maintain HES Assessor certification for all Assessors under OSI partnership. Assessors may maintain

other DOE HES Partner relationships and perform HES Assessments outside the scope of this proposal. However, the OSI will not offer any QA services, mentoring, or cover any costs associated with assessments conducted outside the scope of this proposal.

OSI will be utilizing the DOE's Home Energy Assessment Tool (<https://hescore.labworks.org/>) to generate HES Scores and reports. No blower door results will be required to generate a HES under this proposal and for purposes of compliance with the HERD Ordinance and the OSI will not cover any costs associated with conducting blower door tests.

The purpose of the HES as it pertains to the HERD Ordinance is to provide reliable information to potential home buyers on the estimated energy cost and carbon emissions of the home(s) they are considering buying. During the assessment, the Assessor's focus is on gathering necessary data to generate a HES. They are not expected, nor is it in the scope of this proposal, to troubleshoot home performance issues or to address specific homeowner concerns related to home improvement. Assessors shall be educated on OSI programs clients can contact for this type of information.

Award grantee's will be expected to act as representatives of the City of Ann Arbor while conducting assessments on OSI's behalf. They will be expected to act in a courteous and professional manner, deliver service promptly, and follow OSI protocols for performing assessments in clients' homes. The OSI reserves the right to award more than one or potentially no awards from this work.

### 3. Requirements

- A. HES Assessor Certification; Offerors must either 1) currently be a certified DOE HES Assessor who is willing to add OSI as a HES Partner or 2) currently hold a relevant credential and upon notification of an award obtain HES Assessor certification by TBD.

A certificate of insurance must be included with submission of qualifications. If selected as an HES Assessor, City of Ann Arbor must be named as additionally insured. This equipment shall include, but is not limited to, ladders, measuring devices, camera, computers, and transportation.
- D. Qualifications and Background: See "Section II item A" and "Section III item A".
