Hello,

In advance of the public hearing on May 19, I am writing to share my whole-hearted support for the Greenhills School project. I applaud that the project would include expanded space for the fine arts, which are so important for the well-being young people. As a neighbor of the school, I appreciate that the project would also include increased on-site parking to reduce parking congestion on the surrounding streets. Greenhills is a wonderful neighbor, and I support their effort to maintain the school program and facilities to the highest standard. I look forward to the planning commission approving Greenhills' requests and the project getting underway.

Best wishes,
Katy Miller
