Dear members of the Environmental Commission:

Please support the attached resolution and forward to City Council to help us achieve the following:

- Incorporate the existing Natural Features Master Plan (NFMP) into the Comprehensive Plan,
- Improve the NFMP so that it is applied for all types of future land use, not just for developments that require site plans,
- Modify the A2Zero Carbon Neutrality Plan to include actions that address Natural Features and biodiversity, for greater sustainability, and
- Retain and enforce existing regulations that protect trees, shrubs and other vegetation in Historic Districts.

Thank You for your consideration of this most important issue

Deborah VandenBroek
