To whom this concerns,

Please be advised that Carrier and Gable, Inc. is our exclusive, contracted, representative dealer for Clary Corporation's ITS and Traffic Power Conditioning and Uninterruptible Power Systems in the state of Michigan. This representation does not have an expiration date.

Carrier and Gable Inc. is a fully factory trained firm, providing full support and design applications of Clary Traffic and ITS UPS products.

All Clary Traffic UPS systems are true on-line, real time, fully digital design, power systems, that provide real-time power conditioning with full voltage and current regulation to all loads at all times.

Clary Corporation is the only manufacturer at this time, of this true on-line totally digital design Power Conditioning UPS product. Other manufacturers utilize various types of battery backup designs which are of mainly a standby type of design concept which cannot and will not, provide real-time voltage and current regulation.

Please feel free to contact me at any time if there are any questions concerning Clary products or Carrier and Gable Inc.

Sincerely,

Erik Knecht,
National Sales Manager,
Clary Corporation
