Subject: Support for Zoning Variance Request: ZBA26-0010; 3630 Terhune Road, Ann Arbor, 48104

Dear Members of the Ann Arbor Zoning Board of Appeals,

I am writing to express my support for the variance request submitted for 3630 Terhune Road (Case Number ZBA26-0010).

I live just down the street from this property at 2824 Lillian Rd. I have reviewed the proposal and believe this request is appropriate given the unique shape of their property lines. The area of expansion would not impede neighborhood sightlines or block any passageways.

The homeowners are well-integrated into the Forestbrooke Neighborhood Community and consistently maintain their property. I hope the board approves this request.

Thank you,

Nathan MacPherson
