congratulations! Transportation Commission has built the perfect bicyclist death trap! You deserve a medal! First put in a bike lane for bikes going west on Jackson road between Dexter and Maple, then once riders get to area in front of Vets Pool build an completely unnecessary pedestrian crosswalk, sharply remove the bike lane, and voila!! You have built the perfect bicyclist death trap! With zero space remaning to accommodate both a car and a bicycle between the crosswalk and the curb you're sure to kill many bikers. Yay! Akmon and Hautamaki, you should both be very proud of your big brain problem solving skills.
