(Public Hearings: Individuals may speak for three minutes. The first person who is the official representative of an organized group or who is representing the petitioner may speak for five minutes; additional representatives may speak for three minutes. Please state your name and address for the record.)

(Comments about a proposed project are most constructive when they relate to: (1) City Code requirements and land use regulations, (2) consistency with the City Master Plan, or (3) additional information about the area around the petitioner's property and the extent to which a proposed project may positively or negatively affect the area.)

**18-1680** 132 Hill Street Multi-Family Residential Site Plan for City Council Approval - A proposal to demolish the existing home and construct an 11,600-square foot, 5-unit multiple-family dwelling unit on this 0.26-acre site, zoned R4C (Multiple Family Dwelling). Staff Recommendation: Approval

**Attachments:** 132 Hill Staff Report.pdf

*Kathy Keinath, Macon Engineering, introduced and presented the proposed project. She explained that there are five units, and that vehicle parking and bike parking will be provided.*

*David Lewis, Architect representing the project, presented the proposed elevations, renderings, exterior materials, and windows for the proposed project.*

*A video recording of the complete petitioner presentation is available for viewing online at:*

*City Planner Chris Cheng presented the staff report.*

**PUBLIC HEARING:**

*Cindy (Last Name Unknown), Property Manager of 126 Hill Street, Ann Arbor, requested more information on sharing the driveway, because of the impacts on the surrounding properties. She explained that she wants the area to remain safe. She expressed that she wants to make sure that the building has sufficient infrastructure citing sewage, water, and flood mitigation as potential problem areas.*

**Moved by Mills, seconded by Gibb-Randall that the Ann Arbor City**

**Planning Commission hereby recommends that the Mayor and City Council approve the 132 Hill Street Site Plan, subject to approval from the Zoning Board of Appeals before issuance of any permits.**

*COMMISSION DISCUSSION:*

*Commissioner Mills inquired about the proposed curb-cut location as well as safety as it relates to that location. She also inquired about the infrastructure at the site.*

*Commissioner Gibb-Randall inquired about the rain garden calculations, and suggested a plant species that will be able to withstand the water condition in the area. She also inquired about the materials at the site as well as trees at the site.*

*Commissioner Ackerman inquired about any other outstanding review on the project. He also discussed moving one of the air conditioning units.*

*Commissioner Weatherbee supported Gibb-Randall's request for a plant species that will be able to maintain in the wonder condition in the area. She also inquired about the dumpster location at the site. Weatherbee discussed the impacts of the easement for the driveway in the future. She inquired about the bike hoops. Weatherbee discussed the housing types and styles in the neighborhood, and also inquired about a near by cross walk. She also inquired about how the units will be accessed. Weatherbee discussed that although the project meets code, there are opportunities for the developer to make the proposed building blend with the community better.*

*Commissioner Briggs expressed concern with the building size, open space, and the driveway plans.*

*Commissioner Sauve discussed egress at the site and the arrangement of the garbage bins and bike parking, recommending that they be located. She also discussed the locations of the air conditioning units.*

*Milshteyn discussed the air conditioner locations for phasing as well as the plan for exterior building materials.*

*Commissioner Trudeau discussed the issues that come with R4C zoning, and commented that if the Commission does not like the product produced by that type of zoning, that it could be time to look at making changes.*

*Cheng answered that the building meets the requirements of the lot size, complying with setbacks, and the conflicting land use buffer.*

*Keinath explained that the curb-cut at the 132 Hill side of the building is proposed to be closed. She explained that the driveway reorganization will allow for turning around rather than cars needing to back out. She explained that it will be one driveway with access to both properties. She also explained that currently there is no mitigation for stormwater at the site but there will be improvements made. Kathy also explained that there are three dumpster locations, due to the phasing, and to allow the residents easy access to the dumpsters. She explained that there are hoops, a locker, and space for a class A parking spot in each unit. Kathy explained that there is a patio, porch, and rear yard, coming to 46% open space on the site. Kathy explained that the bike parking locker is located in the location of where a tree would best fit.*

*Lewis explained that the air conditioner units are smaller in reality, and also they some can be relocated. He explained that the air conditioner phasing has not been determined for phasing, due to not knowing if phasing will be needed yet. He also explained that each unit would have in unit bike parking. Lewis used the presentation to describe the entrances and exits of the property for the units. He described the gray and blue paneling materials for the exterior. He explained also that the interior of the units is high quality.*

*Cheng explained that the proposed mitigation and infrastructure plans were accepted by the City. Cheng answered that there are no outstanding review other than the Zoning Board of Appeals. Cheng explained that he can get more information on the near by cross walk.*
