Subject: Cottages at Barton Green

In spite of the title of the development, it does not appear that this proposal would have a mixture of housing types. My concern is that this plan ignores the city's efforts to have new developments to include family housing units as well as affordable housing. Also, the addition of approximately 600 vehicles to be added to this area is problematic. The traffic study reflects that delays at Pontiac Trail and Barton would be the expected outcome. The developer response/solution to this concern is inadequate.

Please do not approve this development as proposed.

Sincerely,
L. Whitney
