I am Miriam Meisler, the next door neighbor of the Hayden family. I moved into 1203 Gardner in 1977, 45 years ago, so I know the family well.

We have greatly enjoyed this proximity to a wonderful family. Irma and Maia and Patrick have been the best of neighbors and a privilege to know. We thoroughly support this proposal to designate the Hayden family home as a historic site. The proposal is well justified by Robert Hayden's accomplishments and his unique role in American letters. Thank you for this opportunity to comment.
