File No. SP14-023

We, the property owners surrounding the subject property, file this petition to document our objection to the rezoning of this property to R4B (Multiple-Family Dwelling District). This property has always been rural township property and early master plans from the mid-1960's, when Lansdowne was developed, show that it was intended to be used for residential purposes. We, therefore request that this property not be zoned R4B but be zoned residential to be consistent with original plans and the surrounding neighborhood.
