Hi Kathy

I wanted to let you know that a Stadium/Iroquois crosswalk is presently scheduled for 2028 to align with potential Highway Safety Improvement Program funding since this will be a high-cost treatment.

Hello, Kathy,

I agree that area is in need of a crosswalk, and it is on the list, marked as "high priority." Unfortunately there's a long list; and other high-priority locations were addressed instead this past year.

I will check in to see where it sits now in terms of identifying funding.

Best,  
Dharma

Dear Mayor Taylor, Council, Administrator, Attorney and Transportation Commission Members,

As a former City Council member, I am writing to reiterate the urgent need for a crosswalk with Rectangular Rapid Flashing Beacons (RRFBs) on Stadium between Packard and Industrial. I have personally met with staff at this site to advocate for this safety measure, and along with other council members, I have repeatedly requested its installation.

This location meets the necessary criteria and poses a significant risk to pedestrians, similar to the unlit crosswalks on Packard Street. It is crucial that the installation of this crosswalk is prioritized immediately.

To underscore the importance of this issue, perhaps it would be beneficial to have residents voice their concerns during the public comment period. We should aim to be proactive in ensuring pedestrian safety rather than reacting after tragic events, as was the case with A2 Safe Transport's advocacy following a fatal crash at another known high-risk crosswalk.

I urge you to demand the inclusion of this safe crosswalk in the current construction cycle.

Sincerely,  
K Griswold
