

## 2013 ESPN College GameDay

The College GameDay set has been in a variety of locations on college campuses. We typically look for a large, open space in front of the football stadium or a campus landmark that is unique and recognizable.

The space should be able to accommodate an audience of up to 10,000 people.

Below are a few notes of interest that will help with our survey.

### Television Compound

- TV "A" Mobile Unit – 90' x 20' (21' x 55' w/o tractor)
- Generator Truck – 80' x 14' (14' x 53' w/o tractor)
- 2- Satellite Trucks (C-band and KU) – (80' x 14' space) needs to have clear view of Southern sky. The second uplink is a KU back-up that will only be on-site early AM the morning of the show and will depart immediately after we clear air.
- 2-West River Staging Truck – 60' x 12' per unit footprint

### ESPN College GameDay Set

- Main Stage – 32' x 28' x 5' plus roof
- Demo Field – 48' x 24' x 2'
- Video Wall – 20' x 40'
- Sponsor Tents - 20' x 20'
- The Home Depot Bus – 45' x 12' footprint
- Bike rack is supplied by ESPN for creating a 'Pit' for students and securing surrounding area
- 'Fly Cam', 2-point aerial camera, with support towers on both sides of student area

This truck does not have to be in the compound, but it is helpful for load out if space permits:

- Screenworks Jumbotron Truck – 40' x 8' footprint

Footprint: Approximately 10,000 sq ft with demo field, 7,000 sq ft without demo field.

ESPN will supply:

Crowd Barricades  
Cable Ramps  
PA System  
Air Conditioners

ESPN may need assistance procuring the following:

- 20 phone lines
- High Speed Internet
- Security ( I have worked with Dave Clemmons with Strategic Protection in the past)
- Catering (can this be an outside caterer)
- Catering tent (please note: If a dining area is available, no catering tent is needed)
- Port -o-lets (will need assistance if the University has a preferred vendor)
- Golf carts (will need assistance if the University has a preferred vendor)
- Fork lift, Scissor Lift (will need assistance if the University has a preferred vendor)
- Parking for 30-40 cars (3,400 sq. ft.)
- Mobile Unit Tractor parking and location where Mobile units/Bus/Generator might stage the night before we park into our permanent location)
- Water for ballast for Flycam
- Office space available within University in an area near the Gameday compound, no trailer is needed if the space is provided.
- Room within stadium for small crew (15) to locate during the game, for Pre, Half and Post feeds.
