Subject: Concerns regarding "Cottages at Barton Green" student housing development

Hello,

I am emailing you with concerns regarding the potential new development on Pontiac Trail, Cottages at Barton Green. I do not feel this should be allowed to move forward as student housing, as our City Master Plan, Chapter 10, pg 100, indicates intent of single or mixed FAMILY housing for these developments on Pontiac Trail.

There is a reason we have a City Master Plan, and I am perplexed as to why we are not following our own established master plan. The north area critically needs family and/or professional housing. We do NOT need UM student housing so far removed from campus area.

Please ensure that you are following the intent of our master plan when you review this upcoming development proposal.

Thank you,

Paula Rexer
