Subject: Fwd: vote against the proposed development at the Nixon-Dhu Varren Intersection.

Hello All,

We are the resident in Foxfire subdivision. We would like to against the proposed development at the Nixon-Dhu Varren intersection since there will be a huge increase of traffic in the already busy Dhu Varren -Nixon_ Green interchange. The City's solution to this is to install a roundabout. This is unacceptable! The roundabout on Nixon -plymouth intersection already causes many car accidents for us. We already need to wait in the Dhu Varren_Nixon_Green interchange for over 30 minutes during the busy time. The proposed development will include over 472 new residences to our neighborhood. This will severely increase our traffic and inconvenience.

Sincerely,

Wei Yi and Hao Zhang
