Hello Mr. Brydon and Commissioners,

I am excited to see the long awaited bicycle boulevard finally coming to fruition. The initial presentation at the Dec. TC meeting showed mini traffic circles at cross streets along Washington including 3rd Street. This is good to see. As a regular visitor to the Y on bike and on foot between 5 and 6pm on weekdays, the vehicle traffic along 3rd St. between Huron and Liberty is significant and at times inconsiderate.

Perhap as part of, or in association with, this project some additional traffic calming could be implemented along 3rd St. between Huron and Liberty? Please do consider it.

Thank you for your time,
Seth Peterson
