Any estimates of delivery dates are based on our current backlog of orders and may therefore differ from the achievable delivery dates at the time of the actual order being placed.
Howden will seek to consolidate shipments as much as possible.

We ask that you clearly state on your Purchase order, if and when partial delivery is desired.

Price and estimated delivery schedule is based upon material price and availability and factory loading at the time of the proposal, and may be subject to adjustment at the time of order placement and acknowledgement.

For any Service & Supervision offered, an estimation was calculated using current rate sheet as a guide. Cost is approximate and a final invoiced amount will present actual cost based on actual hours as required/requested by site personnel.

Typically, our service advisors will travel with diagnostic equipment only and will advise a mechanic/millwright with tools.

Howden standard inspection, packaging and documentation apply to content of this proposal, unless specified above. Additional requirements will be quoted upon request.

For Service & Supervision – additional Labor charge may apply to base rate, overtime rate and double time rate depending on actual hours on workday(s), weekend(s) and Howden locally observed holiday(s).

Howden will supply equipment from Howden workshops/manufacturing sites and via Howden Supply chain approved suppliers sourced worldwide, optimized to give our customers the best value option.

Non Inventory parts are non returnable; returned inventory parts are subject to restocking fee, and will not be accepted without agreement with Howden.

In the event an account has an overdue balance with Howden, Howden reserves the right to hold shipment until payments are received, and the account is current.
