Subject: Support for Healthy Streets Project

Date: Wednesday, September 1, 2021

Commissioners,

I just want to take a moment to express my strong support for the healthy streets initiative including the neighborhood slow streets and the corridors like Packard. I'm disappointed that the healthy streets did not start in the prior FY as proposed, and then implementation in the current FY has been slower than we hoped. However, it is still worthwhile! My family is looking forward to feeling safer in our front yard. And we won't mind the extra minute or two it might us to go east on Packard to grandma's house.

Thanks as always for taking time from your lives to serve the city.

Greg
