Date: Friday, September 10, 2021

Dear Erica, Raymond and transportation commissioners:

I want to thank you for your work planning and implementing the Healthy Streets programs in the downtown as well as neighborhood areas. I've seen a lot of benefits for families with children as well as clear benefits to people using non motorized transportation in our city. I hope in the near future you will face less opposition in the implementation timeline.

Thanks very much, Greg Pratt
