Michelle,

Thank you for contacting the City of Ann Arbor Transportation Commission. Your comment concerning Leading Pedestrian Intervals at traffic signals in the city will be provided as a communication item on the March 16 Transportation Commission Agenda.

Transportation staff are also copied here so that they are also aware of your comment.

Respectfully,

Eli Cooper, A.I.C.P.

Subject: Leading Pedestrian Intervals -> too short

I like that we've added leading pedestrian intervals on our crosswalks, but I would like to suggest that they be lengthened. The amount of time they are now, I spend the entire interval not sure if traffic is actually going to stop when they get their signal. By the time traffic has actually come to a stop, the leading interval is entirely over, and the other direction has already started going.

Thanks.
