Dear David DiRita:

SUBJECT: Michigan Department of Environment, Great Lakes, and Energy (EGLE)
Revised Permit No. WRP031219 v1.1
T02S, R06E, Section 20, City of Ann Arbor, Washtenaw County

We received your letter dated July 29, 2024, requesting a minor revision for work authorized by EGLE Permit Number WRP031219 v1.

This letter authorizes the revision of your EGLE Permit Number WRP031219 v1. These revisions include removal of the existing and proposed flood storage in the Allen Creek Easement, a shallow drainage swale was revised from inside the ice-skating ribbon to the east side of the ice-skating ribbon, and geometry of the walkway was modified. Overall, the proposed changes will increase the overall floodplain storage.

You are reminded that all conditions set forth in the original permit remain in full force. This letter must be attached to your permit and kept at the site of the work, available for inspection at all times during the duration of the project or until the date of expiration. This revision does not obviate the need for other federal, state, and/or local permits as may be required by law.

If you have any questions regarding this letter, please contact me at 517-243-3105; GleasonJ5@Michigan.gov; or EGLE, Water Resources Division, Jackson District Office, P.O. Box 30458, Lansing, Michigan 48909-7958. Please include your Permit Number WRP031219 v1.1 in your response.

Sincerely,

Joshua Gleason
Floodplain Engineer
Water Resources Division
