Subject: Medical MJ dispensary

Hi All

Below is a letter I sent to the "developer/owner" of 12002 Packard, under that is his email response, and my replys.

Abe is a good person, but a "special needs" permit is not necessary or appropriate.

I appreciate your input

Best Wishes,

Lev

To Whom it may concern;

Re: Medical marijuana dispensary at 1202 Packard

I am a medical doctor who agrees with and has signed medical marijuana certification forms. However, I think that this facility too close to Burns Park School and therefore inappropriate. All of us in the medical community know that there are physicians who will sign a Med MJ form for a cash payment. My anxiety is that it may be that some unsavory "patients" who may be there as our children walk home from school. This is not a paranoid statement, or that I am against the legitimate use of medical marijuana. It is only that I am fearful of all of the crazies who are using our schools as killing fields. I also am not against smart gun ownership. There is a dispensary, Arborside, just less than a 1/2 mile down Packard at Stadium Blvd. Therefore it would not be necessary to be so close, or an issue of a patient obtaining this medication easily nearby.

There doesn't seem to be a "special exemption" necessary for this location. I don't think there is any extraordinary reasons for an exemption in this case.

I want to be on the safe side for our children!

I have been an Ann Arbor resident for almost 50 years, and have been in practice here for over 40 years.

Sincerely,

Edward(Lev) Linkner MD, ABIHM
