

MEMORANDUM

TO: City Planning Commission

FROM: Wendy L. Rampson, Planning Manager

SUBJECT: **Downtown Zoning Evaluation Recommendations**

DATE: October 15, 2013

STAFF REPORT

The Ann Arbor Discovering Downtown (A2D2) initiative provided a comprehensive update of the City's downtown zoning, transportation, urban design and historic preservation plans and codes. The A2D2 effort culminated in the adoption of downtown zoning amendments in 2009, in coordination with amendments to the Downtown Plan.

In March and April 2013, City Council passed resolutions (attached) directing the Planning Commission to review several aspects of these downtown zoning changes and provide recommendations for any necessary amendments. In July 2013, the planning firm of ENP & Associates was hired to assist in this evaluation.

Between July and October 2013, ENP & Associates provided a variety of opportunities for the public to comment on the effects of the 2009 amendments and offer suggestions for changes. The consultants met with the Planning Commission's Ordinance Revisions Committee throughout the process. The attached report provides a summary of the public input and the consultant's final recommendations for zoning changes.

Please note the following substantive changes that have been made to the October 4, 2013 draft report:

- Ann Street site: expanded the area recommended for D2 zoning to include the Municipal Center site and recommended the extension of the E Huron 2 character area westward
- Huron Street site: provided new visuals for the diagonal, and included specifics on the maximum diagonal (130')
- William Street site: provided new visuals and included specifics on the maximum diagonal (50% of the maximum parcel diagonal); also included the idea of split zoning on the parcel

Council Action

Resolution: R-13-078

File Number: 13-0170

Enactment Number: R-13-078

Resolution to Direct the Ann Arbor Planning Commission to Review D1/D2 Zoning and Make Recommendations to Amend the Current D1 Zoning Regulations

Whereas, The hybrid zoning standards provided in D1 (Downtown Core) zoning for the downtown have been established since 2009;

Whereas, A sufficient number of projects have been proposed under the new zoning to provide the necessary data; and

Whereas, City Council seeks to ensure that all development in the D1 zoning district is consistent with the adjacent residentially-zoned districts and that all new buildings fit sensitively into the existing development context as noted in the City's Master Plans;

Whereas, City Council also seeks to ensure that high rise buildings have minimum negative impacts in terms of scale, shading and views as noted in the City's Master Plans;

Whereas, City Council recognizes the irreplaceable physical, cultural and historical attributes of the City's downtown and surrounding neighborhoods that the City could lose if the underlying review and subsequent modification of the City's zoning ordinances do not take place;

Resolved, That the City Council directs the Planning Commission to review recently approved and recommended site plans in the D1 zoning district to determine whether these zoning standards provide clear, understandable requirements regarding both form and use and at the same time conform to and carry out the goals of the City's Master Plan, Downtown Plan and Character Overlay Districts; and

Resolved, That City Council provide the Planning Commission with a scope of work and a timeline by April 1, 2013.
