Subject: 17241A Brightdawn - Video Link

Chris –

Below is a link to a site video on YouTube that was created for the project denoting the context of the project including the existing natural buffers of vegetation along Burton, and surrounding the site. This may be helpful for the stakeholders as they review the project. Please advise as to the best way to upload to eTrakit for use?

<https://youtu.be/EL5RUVyqoFA>

Thanks
Tom
