Importance: High

To City Council and the Planning Board,

Please send me the ZOOM planning meeting today April, 9 and also the April 15, council meeting. I live within the distance that this project is intended. I oppose this plan. The existing road has fails to support traffic that currently exists (consider sinkhole that swallowed a car.) It will cause devastation harm to residence. There are several residential projected already in process. As "office" property it could support future jobs. How is Ann Arbor attracting future companies to provide new jobs?

Sincerely, Dianne Malesko
