New city cores, duplexes and ADUs, okay, but I don't want our neighborhoods to start filling in with incongruent 4 story row houses of indeterminate size. I'd hate to have my house replaced by one and my neighbors would be upset with me, too. You know this kind of development here will not bring down the cost of housing for low income residents and will drive development of R1 and R2 housing out into the countryside we are trying to preserve. Please, reject this "New Cleveland" approach.
